

Vision Source Exchange Show Pricing Continued Until End of April

TearScience® hopes you all had an informative experience at Vision Source Exchange. If you did not stop by the TearScience® booth, we wanted to pass along information about the TearScience® system for identifying and treating MGD. TearScience® is extending its Vision Source Exchange show pricing until April 30, 2014.

Take advantage of the VS Exchange promotional pricing now and save up to \$10,000 off our standard Vision Source pricing.

The TearScience® system consists of **LipiView® Ocular Surface Interferometer, Korb Meibomian Gland Evaluator™ (MGE)** and **LipiFlow® Thermal Pulsation System**.

To learn more about the extended show specials, contact Andy Wasserman at AWasserman@TearScience.com or 919-459-5811.
